Details:

Executive Summary

Smile Solutions is Australia's largest single-location private dental practice, located in the heritage-listed Manchester Unity Building at the corner of Collins and Swanston Streets in Melbourne's CBD. Founded in 1993 by Dr Kia Pajouhesh with just eight patients, the practice has grown to serve over 300,000+ patients, employing a multidisciplinary team of over 80 clinicians, dentists, and hygienists across five entire floors plus the iconic tower of one of Melbourne's most recognisable art deco landmarks.

The practice is renowned for pioneering Same Day Porcelain Veneers™ - a world first - developed in partnership with master ceramist Greg Karabasis. Smile Solutions has earned consistent recognition through Australian Business Awards for Service Excellence (2012, 2013, 2014, 2019, 2022, 2023, 2024, 2025) and Business Innovation (2013, 2014, 2024), alongside the Luxury Lifestyle Awards' Best Luxury Dental Clinic in Melbourne (2025).

With 4.9 stars from 937+ Google reviews, 83,000+ Instagram followers, and a comprehensive range of dental services from general dentistry through to complex surgical and cosmetic procedures, Smile Solutions represents the benchmark for premium dental care in Australia.

Mission & Vision

Smile Solutions was founded on the principle of providing genuinely multidisciplinary dental care under one roof - the first such centre outside an Australian dental hospital. Dr Pajouhesh's motivation stems from a traumatic childhood dental experience, which drives the practice's commitment to patient comfort, clinical excellence, and comprehensive care that eliminates the need for referrals across multiple locations.

Founding Story

Dr Kia Pajouhesh graduated with first-class honours in both Science and Dentistry from the University of Melbourne at age 23. He demonstrated exceptional academic ability early, skipping three years of high school. In 1993, he founded Smile Solutions with just eight patients. Over three decades, the practice has grown into Australia's largest single-site private dental practice, serving over 300,000+ patients and cementing its position as a leader in dental innovation, multidisciplinary care, and patient experience.

Dr Pajouhesh is recognised as a thought leader in the dental industry, mentoring over 200 dental practice principals both locally and internationally. He was an Ernst & Young Entrepreneur of the Year nominee (2015) and led the practice to win Telstra Victorian Business of the Year (2014).

Technology & Innovation

In-House Ceramic Studio

A defining feature of Smile Solutions is its dedicated in-house ceramic studio, where ceramists work exclusively for the practice. This arrangement ensures complete quality control, rapid turnaround, and the ability to deliver Same Day Porcelain Veneers - an innovation that would be impossible without on-site fabrication. Master ceramist Greg Karabasis brings 32 years of experience and previously founded one of Australia's largest dental laboratories before joining Smile Solutions.

Digital & Monitoring Technology

- **Dental Monitoring** - AI-powered remote monitoring technology that enables clinicians to track treatment progress between appointments, improving outcomes and convenience for patients - Digital smile design and planning - 3D imaging and scanning - CAD/CAM technology for same-day restorations - Digital X-rays (reduced radiation exposure) - CEREC units, iTero scanners, Trios machines

Physical Mock-Up Previews

For veneer and cosmetic cases, Smile Solutions offers physical mock-up previews - a tangible try-before-you-commit approach that allows patients to see and feel their potential results in the mouth before final treatment.
