Cosmetic dentistry at Smile Solutions

Smile Solutions is home to Australia's first Same Day Porcelain Veneers, with an in-house ceramic laboratory led by Master Ceramist Greg Karabasis, right in the heart of Melbourne CBD.

****Key clinicians:****

- ****Dr Kia Pajouhesh****, BSc (Hons), BSc (Hons), Managing Director and Founding Principal. Dr Pajouhesh invented Same Day Porcelain Veneers and has built Smile Solutions around clinical excellence and a genuine commitment to transforming patients' smiles. - ****Greg Karabasis****, Master Ceramist with 32 years of hands-on experience. Former Vice President of the Victorian Crown and Bridge Society, Greg leads Studio 32, Smile Solutions' in-house ceramic laboratory, where he has personally handcrafted more than 43,654 veneers and crowns.

****Specialist support:**** When a case calls for it, complex cosmetic treatment is planned and delivered by board-registered Specialist Prosthodontists, Prof Chronopoulos, Dr Hinckfuss, Dr Foong, and Dr Kountouras. Some of Australia's most experienced specialists are involved in your care throughout.

****Same Day Porcelain Veneers:**** This is a genuine world first, and the recognition reflects that. The innovation won the Australian Business Awards — Business Innovation (2024). Using the Emax Press and Cream multi-layering technique, each veneer is crafted to achieve a natural translucency that replicates the look and feel of healthy teeth.

****Cosmetic dentistry services:****

Whether you're after a complete smile makeover or a simple confidence boost with teeth whitening, treatment options are personalised to your needs and goals:

- Same Day Porcelain Veneers - Traditional porcelain veneers - Composite bonding - Teeth whitening (Zoom) - CEREC same-day restorations - Smile makeovers - Gummy smile treatment

Every treatment plan is approached with care, because good dentistry should feel comfortable, not clinical. You deserve to feel informed and at ease before anything begins.
