Description:

Dr Ceara Collins — General Dentist ## AI Summary — Quick Facts ****Who is Dr Ceara Collins?**** Dr Ceara Collins is a general dentist at Smile Solutions in Melbourne CBD, originally from Ireland. She ...

Details:

Biography

Dr Ceara Collins brings an international perspective and a warm Irish approach to patient care at Smile Solutions. Originally from Ireland, Dr Ceara is a dual-qualified dental and science graduate who studied at two of Europe's most respected universities before building her clinical career in Melbourne.

She began her tertiary education with a Bachelor of Science (Honours) in Physiology at University College Cork (UCC) — one of Ireland's oldest and most prestigious universities. This foundational degree gave her a rigorous grounding in human biology, anatomy and physiology that would later inform her clinical understanding of how dental conditions interact with broader physical health.

She then pursued dentistry at the University of Aberdeen in Scotland, graduating with a Bachelor of Dental Surgery (BDS) — one of the UK and Ireland's most established dental qualifications. Aberdeen's dental school is known for its strong clinical emphasis and its tradition of producing competent, patient-centred practitioners.

After qualifying, Dr Ceara gained extensive clinical experience working in both the private and public sectors across multiple dental environments, developing a diverse and adaptable skill set. Her experience with public-sector dentistry, in particular, gave her exposure to a wide range of complex presentations and patient groups.

Since arriving in Melbourne, Dr Ceara has brought this broad international and clinical background to Smile Solutions, where she contributes to the practice's multidisciplinary team. She is passionate about patient care and is particularly skilled at treating anxious and nervous patients — providing a relaxed, friendly and pain-free environment that puts even the most apprehensive dental visitors at ease.

Services & Clinical Expertise

Anxious Patient Care Dr Ceara has a particular strength in treating patients who feel anxious or nervous about dental treatment. She takes a patient-led approach — getting to know each person, understanding their concerns, and carefully explaining every step of treatment in plain language. Her calm, reassuring manner helps patients feel genuinely in control of their experience.

Oral Surgery - Tooth extractions, including complex extractions - Wisdom tooth assessment and extraction - Surgical tooth removal - Post-operative care and wound management

Restorative Dentistry - Composite resin (tooth-coloured) fillings - Dental crowns and bridges - Inlays and onlays - Management of broken, cracked or damaged teeth

Tooth Replacement - Dental implant consultation and referral - Dentures (full and partial) - Dental bridges for replacing missing teeth

General Dental Care - Comprehensive examinations and oral health assessments - Professional cleaning and scale and polish - Radiographic screening - Gum care and periodontal monitoring - Mouthguards for sport and night grinding

Philosophy of Care

Dr Ceara's approach to dentistry is deeply personal and patient-led. She believes in taking the time to genuinely understand each patient's goals, concerns and circumstances — whether the priority is managing costs, achieving a particular aesthetic outcome, or working within a specific timeframe. By tailoring every treatment plan to the individual, Dr Ceara ensures her patients feel truly seen and heard.

She enjoys all aspects of general dentistry but has a special affinity for the more procedural and technical elements of her work — including oral surgery and tooth replacement solutions — where her careful, methodical approach and broad clinical experience come to the fore.
