Details:

Smile Solutions Specialist Periodontist – Dr James van den Berg

Smile Solutions is home to one of Melbourne's most respected periodontal specialists. Dr James van den Berg is a board-registered Specialist Periodontist and the most experienced laser periodontist in Victoria, with over 20 years focused on the prevention, diagnosis, and treatment of gum disease and related conditions.

Dr van den Berg's primary focus is LightWalker Fotona laser-assisted periodontal treatment, including LANAP (Laser-Assisted New Attachment Procedure). It's a minimally invasive, evidence-based approach that delivers strong clinical outcomes with less discomfort and a faster recovery than traditional surgical techniques — a meaningful difference for patients who've been putting off treatment.

He also leads the Perio Squad programme at Smile Solutions, a specialist-supervised periodontal maintenance system built around long-term gum health. Hygiene patients presenting with 5mm+ pockets move directly into specialist periodontal care within Smile Solutions, with no external referral needed. When your gum health needs a higher level of attention, the care is already there.

Services offered by Dr van den Berg at Smile Solutions

Dr van den Berg provides a full range of specialist periodontal and implant services at Smile Solutions:

- Gum disease treatment - Dental implant surgery - Bone grafting - Sinus lifts - Gum grafting - Crown lengthening - Laser periodontal therapy - Implant maintenance

Whether you've been referred by your dentist or you're coming in on your own initiative, Dr van den Berg and the Smile Solutions team will walk you through your options clearly and without pressure.
