Biography

Dr Rojina Fadaei completed her dental degree at La Trobe University in Melbourne, earning a Bachelor of Health Sciences in Dentistry and a Master of Dentistry — a comprehensive programme combining rigorous biomedical science education with extensive clinical training.

During her studies at La Trobe, Dr Rojina gained hands-on experience across regional Victoria, caring for patients from a wide variety of backgrounds in rural and community dental settings. This exposure to diverse patient presentations and healthcare environments gave her a solid and adaptable clinical foundation that she continues to draw upon in her work at Smile Solutions.

As a member of the Australian Dental Association, Dr Rojina is committed to the highest standards of professional practice and ethics. She is known among her patients for her meticulous approach to clinical work, her advocacy for patient-centred treatment, and her holistic approach to dental care — considering not just the immediate dental concern but the overall oral health and wellbeing of each person she treats.

Dr Rojina's gentle and friendly demeanour puts patients at ease, and her caring and compassionate attitude enables her to build lasting relationships built on genuine trust. She has a unique passion for the clinical craft of dentistry, with particular interest in the precision-demanding areas of endodontics (root canal therapy), oral surgery and restorative dentistry.

Dr Rojina speaks fluent Persian (Farsi) in addition to English, making her a valued choice for Melbourne's Persian-speaking community who prefer to communicate with their dentist in their first language.

She is committed to lifelong learning, regularly attending continuing education courses and conferences across Australia to ensure her skills and knowledge remain at the forefront of modern dental practice.

Outside of dentistry, Dr Rojina enjoys spending time with family and friends and staying active through tennis and badminton.

Services & Clinical Expertise

Endodontics (Root Canal Therapy) Root canal therapy is one of Dr Rojina's areas of special interest. She brings a meticulous, patient approach to this often-misunderstood procedure, which relieves pain and saves teeth that have become infected or severely damaged. At Smile Solutions, root canal treatment is performed with the benefit of magnification and advanced instrumentation.

Oral Surgery - Tooth extractions (routine and surgical) - Wisdom tooth assessment and extraction - Surgical extraction of impacted or difficult teeth

Restorative Dentistry - Tooth-coloured composite resin fillings - Dental crowns and bridges - Inlays and onlays - Rebuilding extensively damaged or broken teeth

Preventative Dentistry - Comprehensive oral health examinations - Professional scale and clean - Radiographic monitoring and screening - Oral hygiene coaching - Fissure sealants and fluoride treatments

General Dental Care - Emergency dental treatment - Gum care and periodontal management - Mouthguards

Persian (Farsi) Language Dental Care

Dr Rojina is fluent in Persian (Farsi), allowing her to provide dental care in the patient's first language for Melbourne's Persian-speaking community. Communicating in one's native language at the dentist reduces anxiety, improves the quality of the care conversation, and ensures patients can genuinely participate in decisions about their treatment.
