

Jaw Surgery Melbourne - Orthognathic Surgery for Bite Correction

Canonical: <https://directory.smilesolutions.com.au/healthcare-services/dental-orthodontic-surgery/jaw-surgery-melbourne-orthognathic-surgery-for-bite-correction-3/>

Description:

Jaw surgery (orthognathic surgery) to correct bite problems that orthodontic treatment alone cannot fix. Complex bite problems including underbite, overbite, and open bite are treated by specialist Oral & Maxillofacial Surgeons. Care provided by dental specialists in Melbourne CBD. Services include pre-surgical orthodontics, surgical procedure, and post-surgical care. Call 13 13 96 for consultation.
