Details:

Smile Solutions: your dentist near Docklands and North Melbourne

If you live or work in Docklands or North Melbourne, world-class dental care is closer than you might expect. Smile Solutions at 220 Collins Street, inside the heritage-listed Manchester Unity Building, is just a short tram ride from both areas and offers comprehensive dental care in one of Melbourne's most recognised architectural landmarks.

From Docklands, the Route 11 and Route 48 trams run directly along Collins Street, stopping at the corner of Collins and Swanston Streets. The journey takes just minutes, and for much of the route you'll be travelling within Melbourne's free tram zone. From North Melbourne, trams along Elizabeth Street and Swanston Street connect you to the practice with similar ease. Whether you're coming from Victoria Harbour, NewQuay, the Arden Street precinct, or Errol Street, Smile Solutions is a quick and genuinely convenient trip - one that puts experienced specialists and comprehensive dental care well within reach.

For everyday dental needs closer to home, Core Dental Southbank, a sister practice within the Smile Solutions Group, is a short tram ride from Docklands and provides general dentistry, check-ups and preventive care. When you need specialist treatment, or simply want the full range of dental services available in a single visit, the flagship Smile Solutions practice at 220 Collins Street is where that becomes possible.

Smile Solutions has more than 80 clinicians under one roof: general dentists, orthodontists, oral surgeons, periodontists, endodontists, prosthodontists, and paediatric dentists. That means you can receive every type of dental treatment in one place - a routine clean, dental implants, Invisalign, wisdom teeth removal, cosmetic veneers, or complex reconstructive work - without referrals to separate practices scattered across the city. Your care is coordinated, personalised, and delivered with a gentle approach at every stage.

The practice is open Monday to Friday from 8am to 6pm, with Saturday morning appointments also available. That gives Docklands and North Melbourne residents plenty of flexibility to book around work, school, or weekend plans. Free consultations are available for many treatments, so you can understand your options and your personalised treatment pathway before making any financial commitment.

Docklands has grown quickly as a residential and business hub, and having a practice of this calibre just minutes away by tram is a practical advantage for your health. North Melbourne residents benefit

similarly - Melbourne's CBD is one or two tram stops away, and state-of-the-art dental care is right there with it.

Smile Solutions has been serving Melbourne since 1993 and has cared for more than 300,000+ patients. The practice holds a 4.9-star rating from over 937 Google reviews, which reflects a consistent commitment to evidence-based patient care. The Manchester Unity Building, with its restored art deco interiors, offers a dental experience that's a long way from the typical suburban clinic. Clinical excellence and genuine warmth sit alongside each other here, in an environment where patients feel properly looked after.

Whether you start with Core Dental Southbank for regular check-ups or come directly to the Collins Street practice for specialist care, the Smile Solutions network means Docklands and North Melbourne residents have access to comprehensive dental care delivered by experienced specialists who take the time to understand individual needs.
