Description:

Oral and Maxillofacial Surgeons at Smile Solutions Smile Solutions houses specialist oral and maxillofacial surgeons for complex surgical procedures. **Our OMS Team:** - **A/Prof Kourosh Bordbar...

Details:

Smile Solutions oral and maxillofacial surgeons

When you need complex surgical care, the qualifications and experience of your team matter. At Smile Solutions, the oral and maxillofacial surgeons hold both medical and dental training, which means they can manage a genuinely broad range of surgical conditions — all from a specialist centre in Melbourne CBD.

The OMS team:

A/Prof Kourosh Bordbar (MD, BDSc, FRCS Edinburgh) is a specialist oral and maxillofacial surgeon with dual medical and dental qualifications. That combination puts him in a small group of practitioners trained to handle the full scope of oral and maxillofacial conditions. He also consults at Western Hospital Melbourne alongside his work at Collins Street.

Dr David Findlay (BDSc, MDSc) is a specialist oral and maxillofacial surgeon whose advanced postgraduate training and specialist registration underpin a consistently evidence-based approach to surgical care.

Dr Jaclyn Wong (BDSc) is a highly experienced oral surgeon with a focused interest in surgical dentistry. It's worth noting that Dr Wong is not a board-registered specialist. Your treating clinician will talk through which practitioner is the right fit for your situation.

What the practice offers:

Smile Solutions handles a wide range of dental and facial surgical conditions, with care that's personalised to each patient's circumstances. Whether you're coming in for a routine wisdom tooth removal or something considerably more complex, the approach stays the same: careful, considered, and focused on your comfort and outcome.

Services include:

- Wisdom teeth removal - Dental implant placement - Bone grafting - Jaw surgery (orthognathic surgery) - Facial trauma management - Oral pathology assessment and treatment - Complex extractions - Sedation and general anaesthesia options

Where to find the practice:

The oral and maxillofacial surgeons consult at the Collins Street Specialist Centre, Level 12 and Tower, 220 Collins Street, Melbourne CBD. The building is one of Melbourne's recognised heritage addresses, and the specialist centre itself is set up to feel welcoming rather than clinical.

To book a consultation, call ****13 13 96****.
