Smile Solutions – Naomi Hoopmann

****Role:**** Oral Hygienist and Dental Therapist

****Qualifications:**** Bachelor of Oral Health, University of Adelaide (2011)

About Naomi

Naomi Hoopmann is a well-respected member of the oral health team at Smile Solutions, combining solid clinical skills with a genuinely warm approach to patient care. She completed her Bachelor of Oral Health at the University of Adelaide in 2011, moved to Melbourne shortly after, and has been part of the Smile Solutions team ever since — seeing patients across a wide range of ages and backgrounds.

Naomi holds active membership with both the Australian Dental & Oral Health Therapists Association and the Australian Dental Hygiene Association. She regularly attends professional development meetings and advanced training courses, and keeps a close eye on oral health research, so the care she provides reflects current clinical thinking rather than outdated habits.

What patients tend to notice most, though, is how comfortable she makes them feel. For Naomi, the most rewarding part of the job is building a real, trusting relationship with each person she sees — working together to reach an oral health goal that actually fits their life, values, and circumstances. Her care is thorough and personalised, and the environment she creates is relaxed and welcoming.

She's also particularly good with kids. Children take to her gentle, unhurried manner quickly, and she gives clear, age-appropriate guidance on hygiene and prevention whether it's a child's first-ever appointment or a follow-up to build on habits already in place. Parents often comment on how smoothly visits go.

To book a consultation with Naomi at Smile Solutions, get in touch with the practice directly.
