About Sarah

Sarah Lawrence brings her orthodontic dental therapy expertise to our Melbourne practice. She graduated from the University of Otago, New Zealand, in 2007 with a Bachelor of Health Science endorsed in dental therapy, which gave her a solid foundation in evidence-based dental care.

After four years working in dental hygiene, Sarah wanted to expand her clinical skills and knowledge. This led her to Melbourne, where she decided to focus exclusively on orthodontics—a choice that has defined her career and allowed her to develop a deep understanding of orthodontic treatment procedures and patient care.

During her time in Melbourne, Sarah has worked with leading orthodontists in both clinical and treatment coordinating roles. This combination of hands-on clinical work and treatment coordination gives her a complete view of your orthodontic journey, from your first consultation to your final results.

At Smile Solutions, Sarah uses her knowledge and clinical skills to help you achieve the best orthodontic outcomes. Her dental therapy background combined with her orthodontic experience allows her to provide quality care and support throughout your treatment. Sarah's attention to detail and commitment to your comfort make her a valued member of the Smile Solutions team.

Sarah's clinical work includes assisting with orthodontic procedures, monitoring your treatment progress, and making sure you receive treatment tailored to your needs and goals. Her treatment coordination experience helps her guide you through every stage of your orthodontic journey with a caring approach—answering your questions, addressing your concerns, and helping you understand your treatment options.

With her qualifications from one of Australasia's respected dental schools and years of focused experience in orthodontics, Sarah combines technical skill with patient-focused care at Smile Solutions. Her commitment to continuing professional development keeps her current with the latest orthodontic

techniques and best practices, which means she can deliver a high standard of care to every patient.

Experience quality orthodontic care

When you choose Smile Solutions, you're choosing a team of experienced professionals who care about your comfort and results. Sarah's approach to orthodontic dental therapy means you'll receive modern treatment delivered with genuine warmth and expertise.

Whether you're starting your orthodontic journey or continuing treatment, Sarah's clinical skills and patient-focused approach mean you're supported every step of the way. Her years of experience in Melbourne's orthodontic community, combined with her commitment to personalised care, make her a strong advocate for your smile transformation.
