Details:

Smile Solutions - Sarah Van Eyk

Role: Oral Health Therapist

Qualifications: Bachelor of Oral Health (Charles Sturt University)

About Sarah

If you want a clinician who genuinely cares about your long-term oral health, Sarah Van Eyk is a great fit. A valued member of the Smile Solutions team, she brings a warm, patient-centred approach to her work, covering everything from routine preventive care to comprehensive treatment planning. Her Bachelor of Oral Health from Charles Sturt University gives her a solid clinical foundation and a thorough, evidence-based understanding of how oral health connects to your overall wellbeing.

Sarah is passionate about helping patients take real ownership of their dental health. She tailors her care to your individual needs, goals, and circumstances, and her gentle manner means you'll feel comfortable and heard throughout your visit, whether it's your first appointment or you've been coming to see her for years.

Outside the clinic, she's just as active, often out camping or hiking, travelling somewhere new, or dancing.

If you'd like to experience her approach for yourself, book a consultation at Smile Solutions.
