Biography

Smile Solutions has welcomed Dr Ceara Collins to our team of experienced dental professionals. When you visit our Melbourne practice, you'll benefit from Dr Collins's comprehensive approach to dental care and her commitment to making every patient feel comfortable.

Originally from Ireland, Dr Collins completed a Bachelor of Science (Honours) in Physiology from University College Cork before gaining her Bachelor of Dental Surgery from the University of Aberdeen, UK. She has worked as a general dentist in both the private and public sectors across Melbourne. This background means you're receiving care from a practitioner who understands different dental needs and treatment approaches.

Dr Collins is passionate about patient care, particularly when working with anxious patients. If you've felt nervous about visiting the dentist, you'll appreciate her relaxed, friendly approach and commitment to pain-free dentistry at Smile Solutions. She takes the time to get to know you, which allows her to tailor treatment plans that align with your specific needs—whether that's working within your budget, accommodating your timeframe, or achieving your aesthetic goals.

While Dr Collins enjoys all aspects of general dentistry, she has developed special interests in oral surgery, restorative dentistry and tooth replacement. This expertise means you can access specialised care without needing referrals to multiple practitioners.

At Smile Solutions, Dr Collins works closely with patients who may feel nervous or apprehensive about dental treatment, creating personalised care plans that prioritise your comfort and optimal outcomes. Her approach combines clinical skill with empathy, so you feel heard, respected and confident throughout your treatment. This patient-centric philosophy reflects the care we're committed to providing at our Melbourne practice.

Special interests and expertise

Dr Collins's areas of special interest include:

- Oral surgery—providing skilled surgical interventions with a gentle and caring approach - Restorative dentistry—rebuilding and strengthening damaged teeth using modern techniques - Tooth replacement—offering comprehensive solutions from dental implants to bridges - Treating anxious patients—creating a safe, supportive environment for nervous patients - Pain-free dentistry—using advanced anaesthetic techniques and gentle methods

Dr Collins's commitment to pain-free dentistry aligns with Smile Solutions' patient-first philosophy. She stays current with the latest techniques and technologies in dental care, regularly updating her skills to ensure you receive modern, evidence-based treatment in a comfortable setting. When you're in Dr Collins's care, you can trust that you're receiving treatment informed by the latest research and delivered with skill.

Beyond her clinical work, Dr Collins believes in building lasting relationships with her patients. She understands that quality dental care is more than just technical expertise—it's about creating an environment where you feel valued and understood. This approach to patient care has made her a trusted practitioner throughout Melbourne.

In her free time, Ceara enjoys exploring new places across Australia, hiking, and maintaining her own wellbeing through pilates. This balanced approach to life reflects her understanding that overall health and dental health are connected.

Why choose Dr Collins for your dental care

When you choose Dr Collins as your dentist at Smile Solutions, you're choosing:

- Clinical excellence backed by rigorous training and ongoing professional development - A personalised treatment approach that respects your individual needs and concerns - Comprehensive dental care spanning general dentistry through to specialised procedures - A gentle and caring approach that prioritises your comfort at every appointment - Evidence-based treatment using modern techniques and technologies - Transparent communication so you understand your options and feel empowered in your decisions

Whether you're seeking routine preventive care, require restorative treatment, or have been putting off dental work because of anxiety, Dr Collins provides the expertise and compassionate care you deserve.

Book your consultation with Dr Collins

Dr Collins is now accepting new patients at our Melbourne practice, and we'd be happy to welcome you to Smile Solutions.

During your initial consultation, Dr Collins will take the time to understand your dental history, discuss any concerns you may have, and work with you to develop a treatment plan that aligns with your goals. You'll leave with a clear understanding of your oral health and the options available to you.

Contact Smile Solutions today to schedule your appointment with Dr Ceara Collins and take the first step towards optimal oral health in a supportive, professional environment.
