Details:

Smile Solutions Dr Jacques Theron – General Dentist

Role: General Dentist **Qualifications:** Bachelor of Dental Surgery, University of Pretoria, South Africa (1998) **Specialty:** Cosmetic Dentistry, Invisalign, Crown and Bridge

Biography

Dr Jacques Theron has been part of the Smile Solutions dental team for years, bringing a wealth of experience in cosmetic and restorative dentistry to the Melbourne practice. His approach balances clinical skill with a focus on personalised treatment, helping patients achieve healthier smiles and improved wellbeing.

Originally from South Africa, Dr Theron graduated from the University of Pretoria with a Bachelor of Dental Surgery in 1998. Since then, he's maintained a commitment to advancing his skills through ongoing education and specialised training.

His additional qualifications include advanced Invisalign certification (2013), SomnoMed Sleep Dentistry training (2014), and courses in both Dental Implant Surgery Fundamentals and Advanced Implant Site Management (also completed in 2014). This continued learning means his treatment methods stay current with the latest developments in dental care.

Dr Theron particularly enjoys cosmetic dentistry, where he blends technical precision with an eye for aesthetics to create natural-looking results. His work with Invisalign has helped many patients straighten their teeth discreetly, while his crown and bridge treatments restore both appearance and function.

At the Melbourne practice, Dr Theron follows the Smile Solutions approach of comprehensive care delivered with a gentle touch. He uses minimally invasive techniques and modern pain management strategies to make dental visits as comfortable as possible. Each treatment plan he develops considers your comfort, confidence, and long-term oral health.

When you see Dr Theron for dental care, you're working with someone who listens to your concerns, understands what you're hoping to achieve, and collaborates with you to reach those goals. He makes sure you're informed and supported throughout the process.

Special Interests

Dr Theron's areas of expertise include:

- **Cosmetic dentistry** – Creating confident smiles through aesthetic treatments tailored to your facial features and personal preferences - **Invisalign** – Straightening teeth discreetly with clear aligners, a comfortable alternative to traditional braces - **Functional crown and bridge treatments** – Restoring damaged or missing teeth with precision-crafted restorations that look and function naturally - **Sleep dentistry (SomnoMed)** – Providing solutions for sleep apnoea and snoring to improve sleep quality and overall health - **Dental implant surgery** – Replacing missing teeth with permanent, natural-looking implants that restore your smile's form and function

Why Choose Dr Theron for Your Dental Care?

When you visit Dr Theron at Smile Solutions, you're seeing a dentist who combines technical skill with genuine care for his patients. His approach focuses on your individual needs, with every treatment customised to deliver the results you're looking for.

Whether you're interested in a complete smile transformation through cosmetic dentistry, exploring the convenience of Invisalign, or need restorative treatments like crowns, bridges, or dental implants, Dr Theron has the experience to guide you towards better oral health.

Ready to experience quality dental care in Melbourne? We'd be happy to welcome you to the practice and help you achieve a healthier, more confident smile.

Book your consultation with Dr Jacques Theron today and discover the Smile Solutions difference, where clinical skill meets personalised, compassionate care.
