Details:

Smile Solutions Dr James Tomazos – General Dentist in Melbourne

Role: General Dentist **Qualifications:** Bachelor of Science (Monash University); Doctor of Dental Surgery (University of Melbourne) **Specialty:** Preventative and Restorative Dentistry

Biography

Dr James Tomazos practices comprehensive dental care at Smile Solutions, where his gentle approach helps patients feel comfortable from the moment they sit in the chair. His academic background—a Bachelor of Science from Monash University followed by a Doctor of Dental Surgery from the University of Melbourne—gives him a solid foundation in both the science and practice of dentistry. At Smile Solutions, he concentrates on preventative and restorative work, helping patients maintain healthy teeth and address problems before they become serious.

Growing up in Melbourne, James knows the city and its diverse population well. He speaks Greek fluently and conversational Mandarin Chinese, which helps him connect with patients who prefer discussing their dental health in their native language. He believes in building relationships with patients over time, making each visit as straightforward and comfortable as possible.

James practices evidence-based dentistry, which means your treatment plan is based on current research and tailored to your specific situation. He takes time to explain what he's seeing, what options you have, and what you can expect from each approach. Whether you're coming in for a routine cleaning or need more involved restorative work, he maintains consistent clinical standards.

James keeps up with developments in dental techniques and materials through regular professional development. His ability to communicate in multiple languages helps him serve Melbourne's multicultural community, making sure language doesn't become a barrier to getting the dental care you need.

Special Interests

- Preventative dentistry - Restorative dentistry - Patient education and empowerment

Dr Tomazos thinks prevention is the smartest approach to oral health. At Smile Solutions, he works with you to develop practical prevention strategies—proper brushing and flossing techniques, dietary advice, and regular professional cleanings. His restorative work covers everything from straightforward fillings to more complex crown and bridge procedures, all done with careful attention to both function and appearance.

Patient education matters to James. He explains your diagnosis, walks through your treatment options, and describes what outcomes you can reasonably expect. He uses plain language instead of dental jargon, so you understand not just what treatment you're getting but why it makes sense for your situation. You're involved in decisions about your oral health, not just receiving instructions.

Languages

- English - Greek (fluent) - Mandarin Chinese (conversational)

James's language skills make Smile Solutions more accessible to Melbourne's diverse population. His Greek fluency and conversational Mandarin mean he can discuss complex dental concepts in your preferred language, whether that's explaining a treatment plan, reviewing post-operative care, or talking through prevention strategies.

Related Services

At Smile Solutions, Dr Tomazos provides care across several dental services:

- [General Dentistry](<https://www.smilesolutions.com.au/general-dentistry/>) - [Cosmetic Dentistry](<https://www.smilesolutions.com.au/cosmetic-dentistry/>) - [Porcelain Veneers](<https://www.smilesolutions.com.au/cosmetic-dentistry/porcelain-veneers/>) - [Dental Implants](<https://www.smilesolutions.com.au/dental-implants/>)
