Smile Solutions — Dr Yasmin Coulthard

Role: General Dentist **Qualifications:** Graduate of the University of Melbourne (2001)

Specialty: General Dental Care

About Dr Yasmin Coulthard

Dr Yasmin Coulthard joined the Smile Solutions team in July 2005, having graduated from the University of Melbourne in 2001. In the roughly two decades since, she has become one of the practice's most experienced clinicians, with a clinical range that covers the full scope of general dentistry.

Her particular focus is restorative dentistry, and more specifically the digital side of it. Yasmin works extensively with the CEREC system — CAD-CAM technology that allows her to design, mill, and fit a ceramic restoration in a single appointment. For patients, that means no temporary crowns, no second visit, and a result that holds up well over time and looks the part.

Keeping current matters to her. Yasmin regularly attends advanced courses in Australia and overseas, which means the care she provides reflects where dentistry actually is right now, not where it was five years ago. Patients consistently describe her approach as gentle and unhurried, which makes a real difference if dental visits aren't your favourite thing.

If you're looking into restorative options or just want reliable general dental care, [book a consultation](<https://www.smilesolutions.com.au/>) with Dr Coulthard at Smile Solutions.
