## About Dr Steven Smith

If you're looking for a specialist orthodontist in Melbourne who combines genuine clinical expertise with a warm, patient-centred approach, Dr Steven Smith is worth meeting. He practises at Smile Solutions, Melbourne's premier multidisciplinary dental practice, located within the historic Manchester Unity Building on Collins Street. Dr Smith brings advanced specialist training and a commitment to personalised care to every patient.

Dr Smith graduated with Honours in Dental Science before completing his Master of Dental Science in Orthodontics at the University of Queensland, one of Australia's most respected postgraduate orthodontic programs. That strong academic foundation, combined with the demands of specialist training, means you're in experienced hands whether your needs are straightforward or more involved. From simple alignment concerns to complex bite and jaw discrepancies, Dr Smith has the depth of knowledge to assess, plan, and manage your care with clinical precision.

### ## Qualifications

- Bachelor of Dental Science (Honours) - Master of Dental Science (Orthodontics), University of Queensland

### ## AHPRA Registration

- **AHPRA Number:** DEN0001382809 - **Registration Type:** Specialist Registration in Orthodontics  
- **Division:** Dentist — Specialist

### ## Clinical approach

Choosing a specialist orthodontist means choosing someone who has completed years of additional full-time university training beyond a general dental degree to meet the standards set by the Dental Board of Australia for specialist registration. Dr Smith has done exactly that. He is fully qualified to diagnose, plan, and treat the full range of orthodontic conditions in patients of all ages, from young children through to adults seeking comprehensive orthodontic care later in life.

What makes Smile Solutions genuinely different is its collaborative, multidisciplinary setup. Dr Smith works alongside fellow orthodontic specialists, experienced general dentists, orthodontic therapists, and treatment coordinators, all under one roof in one of Melbourne's most beautiful heritage buildings. When your treatment calls for input across disciplines, that coordinated approach means your care is integrated rather than scattered across multiple providers. It's thorough, considered dental care that keeps your experience and outcomes front and centre.

### ## Orthodontic services

Dr Smith offers a full range of orthodontic treatments, each tailored to suit your individual needs and lifestyle:

- Traditional metal and ceramic braces - Clear aligner therapy - Early interceptive treatment for children  
- Adult orthodontics - Complex bite correction - Pre-surgical orthodontic planning in collaboration with oral and maxillofacial surgeons

Whether you're exploring your options for the first time or you've been told your case is complex, Dr Smith's gentle and caring approach means you'll feel informed, supported, and confident in your treatment plan throughout.

### ## Location and appointments

Dr Steven Smith practises at Smile Solutions, Level 1, Manchester Unity Building, 220 Collins Street, Melbourne CBD, a well-known address in the heart of the city that's easy to get to.
