****Role:**** Prosthodontist & Implantologist ****Registration:**** General Registration, Dental Board of Australia (AHPRA) - practising in prosthodontics ****Specialty:**** Prosthodontics, Implantology

About Dr Dinos Kountouras

Dr Dinos Kountouras has spent more than 30 years working as a specialist prosthodontist and implantologist at Smile Solutions in Melbourne. That kind of experience adds up - in the precision of his technique, the range of cases he's handled, and the way he approaches each patient's situation on its own terms rather than reaching for a one-size-fits-all solution.

Dinos completed his undergraduate dental studies at the University of Liverpool in 1991, then went on to earn both an MSc and a PhD in Prosthetic Dentistry at the Eastman Dental Institute, University of London. He later trained in implantology at New York University's Department of Implant Dentistry, where the program was directed by Dr Dennis Tarnow - a name well known in implant dentistry internationally.

Qualifications

- BDS, University of Liverpool, England (1991) - MSc in Prosthetic Dentistry, Eastman Dental Institute, University of London, UK - PhD in Prosthetic Dentistry, Eastman Dental Institute, University of London, UK - Specialised Program in Implantology, New York University (Program Director: Dr Dennis Tarnow)

Education & Lecturing

Outside his clinical work at Smile Solutions, Dinos is active in dental education - both as a continuing learner and as someone who teaches other practitioners. He founded ****Kountouras Dental Education**** as a platform for sharing clinical knowledge with dental professionals, which says something about how seriously he takes evidence-based practice and the broader standard of care in the profession.

Clinical Expertise

Dr Kountouras has built his career around some of the more technically demanding areas of modern dentistry. His clinical work covers:

- ****Dental implant treatment**** - replacing missing teeth with solutions designed to look, feel, and function like natural teeth - ****Minimally invasive full-mouth rehabilitation**** - restoring the whole smile while preserving as much natural tooth structure as possible - ****Cosmetic smile makeovers**** - treatment plans shaped around each patient's goals, facial features, and lifestyle - ****4D Digital**

Dentistry** - digital planning and delivery for more precise, predictable outcomes - **Smile rehabilitation using the latest digital technologies** - applying current tools where they genuinely improve results

Whether you're considering implants for the first time, looking at a full-mouth makeover, or wanting a second opinion from a specialist, Dr Kountouras will work through your options with you clearly and without pressure.
