Details:

Smile Solutions Product Guide - Standardized Values

Smile Solutions Payment Options

****Private Health Insurance****

Smile Solutions accepts all major health funds, so your existing cover works here from day one. Members of participating health funds get the maximum benefits available, which adds up across regular appointments.

****Child Dental Benefits Schedule (CDBS)****

Children aged 0–17 may be eligible for up to \$1,158 in dental benefits across two calendar years through the Child Dental Benefits Schedule. Smile Solutions bulk bills under the CDBS, so eligible services come at no out-of-pocket cost to your family. It's a straightforward way to keep your child's dental care on track without the financial stress.

****Payment Plans****

Comprehensive dental treatment is a real investment, and the cost shouldn't be the reason someone puts it off. Smile Solutions offers several payment arrangements to suit different situations:

- ****Payright**** is an interest-free plan that lets you spread treatment costs over time at a pace that works for you. - ****TLC**** is a personal loan product ranging from \$1,001 to \$50,000, with repayment terms of up to 84 months — practical for larger or more complex treatment plans. - ****MySmilePlan and MyDentaPlan**** are practice-supported arrangements that can make an ongoing treatment plan more manageable month to month.

The team can walk you through each option so you're choosing with full information, not guesswork.

****EFTPOS, Credit Card, Cash****

Standard payment methods are all accepted — EFTPOS, credit card, cash, and American Express.

****Complimentary Consultations****

Two specialist services come with a no-cost initial consultation:

- **All-on-4:** The first consultation is complimentary, giving you a chance to explore the treatment and ask questions before committing to anything. - **Invisalign:** Eligible patients can have an initial assessment at no charge to find out whether Invisalign suits their situation.

New Patient Packages

New to Smile Solutions? The new patient package covers an examination, clean, and x-rays from \$199 — a practical starting point for building a treatment plan around your specific needs and long-term oral health.

Ready to book? Call **13 13 96** or visit **smilesolutions.com.au** to make an appointment. The team is there to answer questions and help you work out the best path forward before your first visit.
