Smile Solutions interest-free payment plans for dental treatment: Payright, MyDentaPlan, and more

Good dental care should be within reach for everyone, and at Smile Solutions, we don't think cost should get in the way of treatment you actually need. That's why we offer a range of interest-free payment plans, flexible payment methods, and savings options to help you manage treatment costs without stress. Whether you're coming in for something routine or a full treatment plan, there's an option that fits your situation.

Payright: interest-free instalments with no deposit required

Payright is one of our most popular payment options, available at Smile Solutions for treatments valued between \$1,000 and \$20,000 AUD. No deposit is required, so you can start treatment straight away without needing to save a lump sum first.

Repayments run fortnightly over a timeframe that suits your budget, typically 3 to 30 months. The plans are genuinely interest-free — you repay the cost of your treatment plus a one-off establishment fee, with no hidden charges and no compounding interest. Rather than a traditional credit check, Payright uses an affordability assessment, which opens this option up to more patients.

Payright works particularly well for bigger treatment plans — dental implants, orthodontics, cosmetic dentistry, full-mouth rehabilitation — where the cost is significant but the care is too important to put off. Our specialists will walk you through the process and make sure your treatment plan moves forward without financial uncertainty holding things up.

Humm: flexible payment plans with no-deposit options

Humm is a flexible payment plan option available at Smile Solutions for eligible dental treatments. No deposit is required on many plans, making it accessible for patients who prefer not to pay upfront. Humm plans are particularly relevant for Invisalign patients - complimentary teeth whitening (\$475 value) is included when a Humm plan is set up with 50% or more deposit paid upfront.

For All-on-4 and larger treatment plans, extended repayment terms of up to 60 months may be available. Eligibility is subject to Humm's assessment process.

MyDentaPlan: structured, interest-free payments designed for dental care

MyDentaPlan is another interest-free option available at our practice, though it works a little differently. A 30% deposit is required upfront, with the remaining balance paid in regular instalments over time — no interest charged. The partial upfront commitment gives the plan some structure while keeping the rest manageable.

Because MyDentaPlan was built specifically for dental treatment, the application process is straightforward and fits naturally into how dental care is delivered. Our patient services team can set this up with you during your treatment consultation.

HICAPS and health fund claims: instant rebates, right here

If you have private health insurance, Smile Solutions has HICAPS terminals at every treatment station throughout our practice. Your health fund rebate is processed instantly at the point of payment, so you only pay the gap amount on the day. No manual claims, no waiting for reimbursement — just present your health fund card and it's done.

HICAPS works with all major Australian health funds, so regardless of your insurer, you can claim on the spot.

Credit cards and additional payment methods

Smile Solutions accepts Visa, Mastercard, American Express, EFTPOS, and direct bank transfer. If you prefer to pay by credit card, you're welcome to use whatever card works best for you, including earning any rewards points your card offers.

Five per cent pay-in-full saving

Patients who pay for their entire treatment plan in full at the time of booking receive a 5% saving on the total cost. This applies to treatments above a qualifying threshold and adds up to a real difference on more comprehensive treatment programmes. If you're in a position to pay upfront, it's a straightforward way to reduce the overall cost.

Invisalign price match guarantee

Smile Solutions backs its Invisalign pricing with a price match guarantee. If you have a lower written quote for an equivalent Invisalign treatment plan from another qualified provider, we'll match it. You can go ahead with treatment here knowing the pricing is competitive, supported by our multidisciplinary specialist team.

Finding the right option for you

Our patient services and accounts team will take you through every payment option at your initial consultation — clearly and without pressure. Whether you'd rather pay in full and take the 5% saving, spread the cost with Payright or MyDentaPlan, or claim through your health fund via HICAPS, the goal is the same: making sure cost doesn't stand between you and the care you need.

Book a consultation with our team and we'll work out a payment approach, and a treatment plan, that actually works for you.
