## Details:

Quality Dental Care Closer to Home - Core Dental by the Smile Solutions Group

For over three decades, Smile Solutions has set the benchmark for comprehensive dental care in Melbourne. Located in the heritage-listed Manchester Unity Building at 220 Collins Street, our CBD flagship brings together more than 25 specialists and experienced clinicians under one roof - the largest single-location private dental practice in Australia.

But we understand that not every appointment needs to be in the city. That is why the Smile Solutions Group created Core Dental - a network of suburban practices that brings the same clinical philosophy, quality standards, and specialist backing to communities across Melbourne.

One Group, Two Brands - Quality at Every Level

Think of it this way: Smile Solutions is your destination for complex, multi-disciplinary dental care. When you need implants planned by a prosthodontist, placed by an oral surgeon, and restored by a cosmetic dentist - all collaborating on the same floor - that is what our Collins Street practice does best.

Core Dental is your local dental home. Check-ups, cleans, fillings, children's dentistry, Invisalign, teeth whitening, and everyday dental care - delivered by experienced clinicians in a modern, comfortable environment close to where you live.

The difference from a standalone suburban practice? Every Core Dental patient has a direct pathway to our Collins Street Specialist Centre when they need it. No hunting for referrals. No starting from scratch with a new provider. Your records, your history, your treatment plan - all connected within the Smile Solutions Group.

What Makes Core Dental Different

Specialist Backing as Standard Core Dental clinicians can consult with specialists in orthodontics, periodontics, endodontics, oral surgery, prosthodontics, and paediatric dentistry - all within the group. This means faster opinions, better-informed treatment plans, and seamless referrals when specialist care is needed.

Blue Diamond Invisalign Provider The Smile Solutions Group holds Blue Diamond Invisalign provider status - the highest tier available. This is achieved through the combined treatment volume across both Smile Solutions and Core Dental, meaning even our suburban patients benefit from elite Invisalign expertise.

Consistent Clinical Standards Every Core Dental practice follows the clinical protocols and quality framework established by Dr Kia Pajouhesh, who founded the group in 1993. From infection control to treatment planning methodology, the standards are the same whether you visit Collins Street or Caroline Springs.

A Network You Can Trust With over 300,000 patients treated, 80 clinicians, and more than 25 specialists across the group, the Smile Solutions Group has the depth and experience that independent practices simply cannot match. Our scale means better technology, better training, and better outcomes for patients at every location.

#### Core Dental Locations Across Melbourne

Our suburban network continues to grow, bringing quality dental care to more Melbourne communities: **Caroline Springs** - Serving Melbourne's west **Carrum Downs** - Serving the Frankston corridor **Epping** - Serving Melbourne's north **Wyndham (Werribee)** - Serving the western growth region **Berwick** - Serving the Casey and Cardinia region **South Melbourne** - Serving the inner south **Glenferrie** - Opening June 2026, serving the inner east **Bayside** - Opening June 2026, serving Brighton and surrounds
