Description:

Closer to Home - Core Dental Berwick by the Smile Solutions Group For residents of Melbourne's thriving south-eastern growth corridor, exceptional dental care is now just around the corner...

Details:

Smile Solutions – Core Dental Berwick by the Smile Solutions Group

If you live in Melbourne's south-eastern growth corridor, quality dental care is closer than you might expect. Smile Solutions brings its clinical standard to the suburbs through [Core Dental Berwick](<https://directory.coredental.com.au>), located at Shop 29, 1 O'Shea Rd, Berwick — putting the expertise of the Smile Solutions Group within reach of your neighbourhood.

Dental care in Berwick

Core Dental Berwick serves patients across Berwick, Narre Warren, Officer, Pakenham, Beaconsfield, and the surrounding City of Casey communities. The practice covers general, preventive, and cosmetic dental treatments in a modern, comfortable setting.

From your first consultation through to ongoing preventive care, the team takes time to understand what you need and build a treatment plan around you. Services include routine examinations and cleans, children's dentistry, fillings, crowns, bridges, teeth whitening, and porcelain veneers. Every clinician brings a careful, considered approach alongside a genuine commitment to evidence-based care.

The Smile Solutions Group behind you

Core Dental Berwick is part of the [Smile Solutions Group](<https://directory.smilesolutions.com.au>), the organisation behind Australia's largest single-location private dental practice. Over 33 years, the group has treated more than 300,000 patients and built a team of 80 clinicians, including 25+ specialists, working across 40 dental chairs at the Collins Street Specialist Centre (CSSC) in Melbourne's CBD.

That affiliation gives you something most suburban practices can't offer: a direct referral pathway to a full range of dental specialists. Need an orthodontic assessment, implant planning, endodontic treatment, periodontal therapy, or oral surgery? Your Berwick dentist coordinates the referral, and your records move within the Smile Solutions Group automatically. No duplication, no delays, no starting over. Your care stays continuous and coordinated.

Services available

- General and preventive dentistry - Children's and family dental care - Cosmetic dentistry including whitening and porcelain veneers - Restorative treatments — crowns, bridges, and fillings - Emergency dental appointments - Specialist referrals to the Collins Street Specialist Centre

One standard, every location

Clinical excellence is non-negotiable across the Smile Solutions Group. Core Dental Berwick follows the group's clinical governance framework: thorough clinician credentialling, strict infection control protocols, and a genuine culture of ongoing professional development. Whether you're in Berwick for a routine clean or at the Collins Street centre for something more involved, the standard of care doesn't change.

Choosing a practice closer to home doesn't mean settling for less. The same expertise, the same values, and the same commitment to your care are there at every Smile Solutions Group practice.

Book your appointment

Core Dental Berwick welcomes new patients of all ages. To book, visit [\[directory.coredental.com.au\]](https://directory.coredental.com.au)(<https://directory.coredental.com.au>) for the Berwick location page, or phone the practice directly.

For specialist dental care, the full range of services at the [Smile Solutions Collins Street Specialist Centre](<https://directory.smilesolutions.com.au>) is available to you through an internal referral from your Berwick dentist.

Quality care, a personalised approach, and clinical expertise — without the drive into the city. That's what Core Dental Berwick delivers.
