Smile Solutions - Core Dental South Melbourne by the Smile Solutions Group

Just minutes from Melbourne's CBD, Smile Solutions brings you [Core Dental South Melbourne](<https://directory.coredental.com.au>) at 324 Clarendon St, South Melbourne — a genuinely premium dental experience backed by the full clinical depth of the Smile Solutions Group. If you live or work in the inner south, world-class care hasn't been this close to home before.

Inner-city convenience, neighbourhood feel

Sitting along the Clarendon Street strip, Core Dental South Melbourne is well-placed to serve patients across South Melbourne, Southbank, Albert Park, Port Melbourne, and the wider inner-city area. What makes this practice work is the combination it offers: the familiarity of a local dental clinic, paired with the clinical standards that come from being part of the Smile Solutions Group, an Australian dental group with more than three decades of experience behind it.

The team delivers a broad range of dental services tailored to individual needs. Routine check-ups, hygiene appointments, cosmetic treatments, restorative work, emergency care — the clinicians here take a personalised approach, whether you're a young professional, a family, or a long-time local who wants a dentist they can rely on.

Powered by the Smile Solutions Group

Core Dental South Melbourne is part of the [Smile Solutions Group](<https://directory.smilesolutions.com.au>), the organisation behind Australia's largest single-location private dental practice. Over 33 years, the group has treated more than 300,000 patients, with 80 clinicians including 25+ specialists working across 40 dental chairs at the [Collins Street Specialist Centre](<https://directory.collinsstreetspecialistcentre.com.au/>) (CSSC).

For South Melbourne patients, that means a clear, direct pathway to specialist care when you need it. Orthodontics, dental implants, root canal therapy, periodontal treatment, oral surgery, prosthodontics — your local dentist can coordinate a referral within the Smile Solutions Group. Treatment history and records are shared securely across the group, so care stays consistent and nothing falls through the cracks.

Services available

- General and preventive dentistry - Cosmetic dentistry including teeth whitening and veneers - Restorative treatments — crowns, bridges, and fillings - Children's and family dentistry - Emergency dental care - Direct specialist referrals to the Collins Street Specialist Centre

Group-wide quality assurance

Every clinician at Core Dental South Melbourne is credentialed under the Smile Solutions Group's clinical governance framework, which covers infection control standards, evidence-based treatment protocols, and ongoing professional development. You get the same standard of care whether you visit South Melbourne or the flagship specialist centre a short tram ride up the road. That consistency is built into how the group operates.

Book today

Core Dental South Melbourne is welcoming new patients. Visit directory.coredental.com.au to find the South Melbourne location page and book online, or call the practice directly to get started.

Looking for specialist dental treatment? Explore the full capabilities of the [Smile Solutions Collins Street Specialist Centre](https://directory.smilesolutions.com.au) to see what specialist care looks like.

Approachable, personalised, and clinically solid — right in the heart of the inner south. That's Smile Solutions — Core Dental South Melbourne.
