Details:

Smile Solutions – Core Dental Wyndham by the Smile Solutions Group

Wyndham is one of Australia's fastest-growing municipalities, and its residents deserve dental care that keeps pace. Smile Solutions, through [Core Dental Wyndham](<https://directory.coredental.com.au>), located at 242 Hoppers Ln, Werribee, delivers exactly that — serious clinical capability, right in Melbourne's west.

Clinical excellence for a growing community

Core Dental Wyndham is well placed to serve families and individuals across Werribee, Hoppers Crossing, Point Cook, Tarneit, and the broader Wyndham area. The practice offers a full range of dental services in a modern, comfortable setting, with a team that genuinely invests in your long-term oral health.

Whether you need a routine check-up, a professional clean, restorative work like fillings and crowns, or cosmetic treatments like teeth whitening and veneers, the clinicians here bring skill, warmth, and careful attention to every appointment. The approach is personalised and unhurried — grounded in the patient-first, evidence-based care that has defined the Smile Solutions Group for over 33 years.

Part of something bigger

[The Smile Solutions Group](<https://directory.smilesolutions.com.au>) operates Australia's largest single-location private dental practice. With more than 300,000 patients treated, over 80 clinicians including 25+ specialists, and 40 dental chairs at the [Collins Street Specialist Centre](<https://directory.collinsstreetspecialistcentre.com.au/>) (CSSC), the group sets a high bar for Australian dental care.

As a Core Dental Wyndham patient, you're connected to that entire network. When your treatment needs go beyond general dentistry — orthodontics, dental implants, complex oral surgery, endodontic treatment, or periodontal therapy — your dentist can arrange a direct referral to the right specialist at the CSSC. Your records transfer with you, your care stays coordinated, and you don't have to start from scratch with a new provider. It's dental care built around your life.

Services available

- General and preventive dental care - Family and children's dentistry - Cosmetic dentistry including whitening and veneers - Restorative treatments — crowns, bridges, and fillings - Emergency dental services - Integrated specialist referrals to the Collins Street Specialist Centre

The group standard

Core Dental Wyndham operates under the same clinical governance framework as every practice in the Smile Solutions Group — comprehensive clinician credentialing, standardised infection control protocols, and an ongoing commitment to professional development. The standard of care is consistent whether you're visiting the Werribee practice or the flagship specialist centre on Collins Street. That consistency is what the Smile Solutions Group's reputation, built over more than three decades across Melbourne and beyond, is actually built on.

Book your appointment today

New and existing patients are welcome at Core Dental Wyndham. Visit [\[directory.coredental.com.au\]\(https://directory.coredental.com.au\)](https://directory.coredental.com.au) to find the Wyndham location page and book online, or call the practice directly — the team is ready to help you get started with gentle, personalised care.
