Details:

Smile Solutions Specialist Orthodontists in Melbourne

Your smile is worth getting right, which is why Smile Solutions brings together four Dental Board-registered Specialist Orthodontists under one roof — more specialist expertise in a single private practice than anywhere else in Melbourne.

Meet your orthodontic team:

- **Dr David Austin** — BDSc, MDSc (Ortho), Specialist Orthodontist. Decades of hands-on clinical practice give Dr Austin a depth of experience that's genuinely hard to find. - **Dr Joshua Ch'ng** — BDSc, MDSc, MRACDS (Ortho), Specialist Orthodontist. Multiple fellowships and advanced qualifications, combined with a treatment approach that's tailored to each patient rather than applied by formula. - **Dr Katie Xu** — BDSc, MDSc (Ortho), Specialist Orthodontist. A dedicated specialist focused on delivering strong outcomes for every patient she treats. - **Dr Andrea Phatouros** — BDSc, MDSc (Ortho), Specialist Orthodontist. Precise, skilled, and known for a gentle and caring manner at every stage of treatment.

Australia's first Invisalign Blue Diamond provider

Smile Solutions was the first practice in Australia to reach Invisalign Blue Diamond status — the highest tier available. With over 9,000 Invisalign cases completed, and every one managed exclusively by Specialist Orthodontists, that track record speaks for itself. Pricing runs from \$4,400 to \$11,300 AUD depending on the complexity of your case, so your treatment plan reflects what you actually need.

Orthodontic services

The practice covers the full range of orthodontic treatment:

- Invisalign clear aligners - Traditional braces - Lingual braces (fitted behind the teeth, so they stay out of sight) - Early intervention orthodontics for younger patients - Jaw surgery (orthognathic treatment) - Retainers - Invisalign First, designed specifically for children

Whether you're just starting to think about orthodontic treatment or you're already partway through, there's an option here that fits.

Specialist care — no exceptions

Every orthodontic treatment at Smile Solutions is carried out by a Dental Board-registered Specialist Orthodontist. Treatment is never handed off to a general dentist. That's not a marketing line; it's how the practice operates for every patient.

****Find us in Melbourne CBD****

Smile Solutions is at 220 Collins Street in the heritage-listed Manchester Unity Building, right in the heart of the Melbourne CBD. To book a consultation with one of the specialists, call ****13 13 96**** or book online.
