Smile Solutions Product Guide — Complete Content with Standardized Values

Smile Solutions Specialist Prosthodontists

When it comes to restoring, rebuilding, or perfecting your smile, having access to genuinely experienced specialists matters. Smile Solutions has five board-registered Specialist Prosthodontists practising under one roof in the heart of Melbourne — a level of specialist depth that's genuinely uncommon in a single practice.

Your prosthodontic team:

- **Prof Vasileios Chronopoulos** (MDSc, PhD, Specialist Prosthodontist) brings over 30 years of clinical experience and is widely regarded as one of Australia's most senior prosthodontists. - **Dr Susan Hinckfuss** (BDSc, MDSc, PhD) holds dual specialist registration in both prosthodontics and periodontics — a rare combination that gives her a particularly broad clinical perspective. - **Dr Jamie Foong** (BDSc, MDSc, Specialist Prosthodontist) is a valued member of the specialist team, known for precise, careful work. - **Dr Dinos Kountouras** (BDSc, MDSc) is dual-qualified in prosthodontics and implantology, making him well-suited to complex restorative cases involving implants. - **Dr Fotios Angelis** (BDSc, MDSc, Specialist Prosthodontist) is currently on leave but remains part of the Smile Solutions team.

Studio 32 — the in-house ceramic laboratory

One thing that genuinely sets Smile Solutions apart is having Studio 32 on-site. Rather than sending restorations to an external lab, the practice has its own ceramic laboratory working directly alongside the treating prosthodontists.

Studio 32 is led by Master Ceramist Greg Karabasis, who has 32 years of hands-on experience and has personally handcrafted more than 43,654 veneers and crowns in Melbourne. Each restoration is made to fit the individual patient — shaped around their facial features, their aesthetic goals, and the clinical requirements of their case. It's a meaningful difference from practices that rely on off-site production.

Prosthodontic services

The team at Smile Solutions covers a wide range of specialist services:

- **Porcelain veneers** — crafted to improve the appearance of your smile - **Same Day Porcelain Veneers** — a world-first innovation that delivers results in a single appointment - **Crowns and bridges** — restoring strength, function, and appearance with precision - **Full mouth rehabilitation** — a holistic, evidence-based approach to rebuilding the entire smile - **Dental implant restorations** — replacing missing teeth with natural-looking, long-lasting results - **All-on-4 implant solutions** — a fixed, full-arch restoration for patients who need comprehensive tooth replacement - **Dentures** — custom-fitted and carefully designed to suit individual needs

Whether your concerns are functional, aesthetic, or both, the specialist team will put together a treatment plan that reflects your specific situation — not a generic protocol.

Finding the practice

Smile Solutions is at the **Manchester Unity Building, 220 Collins Street, Melbourne CBD** — a heritage landmark in a central, accessible location.

To book a consultation with a Specialist Prosthodontist, call **13 13 96**.
