Why Choose Smile Solutions for Invisalign

Straightening your teeth is a real investment, and who actually does the work matters more than most people realise.

Smile Solutions is the first practice in Australia to achieve Invisalign Blue Diamond status, with over 9,000 cases completed. What makes that number meaningful is this: every one of those cases was handled by a board-registered Specialist Orthodontist. Not a general dentist. That's a deliberate policy, and it's not common.

Your Invisalign Specialists

Your treatment at Smile Solutions is carried out by some of Australia's most experienced Invisalign clinicians:

****Dr David Austin | Dr Joshua Ch'ng | Dr Katie Xu | Dr Andrea Phatouros****

Each brings deep clinical expertise and a genuine commitment to treatment that's built around your specific situation, because what works for one patient won't necessarily work for another.

Transparent Pricing, Exceptional Value

Smile Solutions publishes its pricing clearly, so you know what you're looking at before you commit:

- ****Invisalign Go**** — from \$4,400 AUD - ****Comprehensive Invisalign**** — from \$11,300 AUD - ****Complimentary teeth whitening**** included with all cases over \$2,000 AUD

These are starting prices that reflect specialist-led care at every stage, from your first consultation through to your final result.

The Smile Solutions Difference: Specialist Care, Every Time

Here's something worth knowing before you start comparing Invisalign providers: most Invisalign treatment in Australia is performed by general dentists, not orthodontic specialists.

Smile Solutions does it differently, and that's a conscious choice.

****Invisalign at Smile Solutions is performed exclusively by Specialist Orthodontists.**** You won't be treated by a general practitioner for your orthodontic care here. Specialist Orthodontists complete years of focused postgraduate training beyond general dentistry, which means your treatment plan draws on a level of expertise that general practice simply doesn't provide. When your smile is involved, that difference is worth paying attention to.

Ready to Take the Next Step?

If you're considering Invisalign and want to understand what's possible for your smile, Smile Solutions welcomes you in for a consultation. The team takes a gentle, unhurried approach to every appointment, so you can arrive at your first visit without any pressure.
